if she did not

never met her

Kellie she makes

an strong, brave

believing in hope

Julie she helped my sister Kellie

get through she was probably

worried a lot but the best

thing is she had a little

amazing support system and my

grandma and grandpa and

adoptive grandparents and friends

I would say all the names

but there probably 30 to 40

people that us when

we needed it the

most when I think of

hope I think of the people

that jumped to us

and did not look us

at all and stayed with us,

when we need them the most
